Experience

InCode

Flutter Developer - Full-Time

P https://www.incodehub.com/

June 2022 - Present

New Cairo

As a Lead Developer, I spearheaded mobile application development, emphasizing design patterns and agile methodologies. Collaborating with cross-functional teams, I facilitated successful API integrations and implemented CI/CD for efficient app delivery. Achieved a significant performance improvement, enhancing user satisfaction through strategic code optimizations. Notably, I spearheaded a pivotal project resulting in a substantial increase in app downloads. Additionally, I played an active role in mentoring junior developers, contributing to the development of a skilled and cohesive team.

AbuDiyab-IT-Services, Saudi Arabia

Junior Flutter Developer - Full-Time https://www.rent.abudiyab.com.sa/ October 2021 - October 2022

New Cairo

During my tenure at AbuDiyab-IT-Services Company, I played a pivotal role in developing a comprehensive application for car rentals in Saudi Arabia. Additionally, I took charge of creating a program to monitor car maintenance conditions, ensuring optimal vehicle performance and longevity. Furthermore, I designed and implemented a program to record employee attendance, contributing to streamlined workforce management.

Vicevio

Mobile Application Developer - Internship

June 2020 - September 2020

India

https://www.linkedin.com/company/vicevio/about/

During my tenure at Vicevio Co, I made significant contributions to the development and enhancement of the Vicevio program, specializing in social media. Through my work, I demonstrated a strong commitment to improving the program's functionality and performance. I played a key role in developing new tools, as well as modifying existing code to optimize the overall user experience.
